

### IN THE CLAIMS

Please amend the claims as follows:

Claims 1-19 (canceled).

Claim 20 (Currently Amended) A kit for preparation of a diagnostic radiopharmaceutical comprising a first container comprising a partially reduced anti-SSEA-1 IgM monoclonal antibody to be radiolabeled and stannous ion which is also present in said first container and a second container ~~comprising~~ consisting essentially of a stabilizer selected from the group consisting of ascorbic acid and water soluble salts, esters and mixtures thereof, in an amount sufficient to stabilize said protein after said protein has been labeled by reaction with a salt of  $^{99m}\text{Tc}$ .

Claims 21-22 (canceled).

Claim 23 (Previously Amended) The kit of claim 20 wherein the first container comprises about 250  $\mu\text{g}$  of partially reduced anti-SSEA-1 IgM monoclonal antibody.

Claim 24 (Original) The kit of claim 20 wherein the stannous ion comprises stannous tartrate.

Claim 25 (Original) The kit of claim 20 wherein the content of the first container is lyophilized.

Claim 26 (Original) The kit of claim 20 wherein the second container further comprises water.

Claim 27 (Original) The kit of claim 26 wherein the second container comprises between 0.25 mL and 2.0 mL of water.

Claim 28 (Original) The kit of claim 20 wherein the first container or the second container further comprises a physiologically acceptable carrier or diluent.

Claim 29 (Original) The kit of claim 20 wherein the first container further comprises maltose, succinic acid, potassium sodium tartrate, glycine, and disodium EDTA.

Claim 30 (Original) The kit of claim 20 wherein the content of the first container is frozen.

Claim 31 (Original) The kit of claim 20 wherein the content of the first container is in liquid form.
